SUMMARY

Live event production professional with 3+ years leading technical and on-site operations for multi-day productions, including in-broadcast camera operation for Nintendo's Splatoon 3 North American League. Skilled in run-of-show direction, vendor and broadcast-team coordination, and cross-functional logistics for events with 100-180+ attendees. Co-founded and scaled an event operations company from the ground up, building repeatable production systems and managing budgets end-to-end. Bilingual in English and Spanish.

EDUCATION

Queens College - City University of New York

May 2024

Bachelor of Arts in Economics

Relevant Coursework: Econometrics, Cost Accounting, Business Ethics

EXPERIENCE

Live Event Camera Operator & Content Creator | Nintendo of America

June 2025 - Present

Remote / On-Site

- Operated the in-game spectator camera live for the Splatoon 3 North American League, broadcast on Twitch and YouTube, covering 6 events as part of the production team.
- Directed camera framing and shot selection in real time during competitive matches, working alongside broadcast producers and casters to deliver a polished live viewer experience.
- Appeared in 3 branded content segments produced with Nintendo's creative team, including two 1v1 gameplay segments with a production colleague and one captain's draft match, contributing to the league's digital programming and audience engagement.

Co-Founder & Event Operations Lead | Metro Ink Entertainment

November 2022 - Present

New York, NY

- Co-founded the company and led end-to-end planning and on-site execution of 15+ multi-day live events for 100-180+ attendees, managing all logistics from pre-event planning through vendor load-in, live programming, post-event breakdown, and inventory storage.
- Served as the primary point of contact for clients, vendors, and venue partners throughout event cycles, resolving operational issues in real time and ensuring all production, AV, and service needs were met on the floor.
- Built the company's core production documentation from scratch, including run-of-show documents, master production schedules, timing plans, and action guides for internal teams and external vendors.
- Established and managed relationships with vendors and partners including venues, equipment suppliers, and broadcast teams, overseeing timelines, deliverables, and compliance across all parties.
- Owned event budgets of \$4,000-\$7,000 per event, tracking venue contracts, vendor payments, equipment rentals, and merchandise production; reconciled financials post-event and processed invoices accurately.
- Recruited, supervised, and directed on-site teams of 10+ staff and 10+ volunteers, including broadcast personnel, commentators, and venue staff, during live event execution, setup, and breakdown.
- Codified recurring processes into repeatable operational SOPs, including vendor agreements, inventory logs, and post-event reports.
- Managed registration platforms and payment systems (Eventbrite, Stripe, Square), reconciling attendee data and financial records for accuracy across all events.

Operations Support | Century Development Group

June 2023 - September 2023

Flushing, NY

- Supported logistics for a professional networking conference, managing attendee check-in, on-site coordination, and ensuring smooth event flow throughout the day.
- Organized and digitized internal records, improving data accuracy and supporting operational efficiency across the team.

Flushing, NY

- Delivered consultative customer service in a high-volume retail environment; maintained a consistent 100% monthly Net Promoter Score (NPS).
- Learned concepts regarding networking, A/V, general technology to support guests of varying knowledge bases in their buying decisions.
